

TOSCA.net

Teacher component

ADVANTAGES AND BENEFITS

For the centre :

- ***Simplified management***
- ***Reduced workload for secretarial staff***
- ***Revision of absence-management process and reduced paper output***

For the teacher :

- ***Increased autonomy***
- ***Better monitoring of students***
- ***Simple and easy navigation***

The TOSCA.net teacher component allows teachers to enter attendance and evaluation data, from home or at the centre, via the Internet.

With TOSCA.net, teachers will be able to enter the attendance for their timetable or workshop groups.

Teachers will also have the possibility of entering results, whether for an objective or the final result. Results by objective will have previously been defined by the centre for the appropriate subjects.

TOSCA.net also offers teachers the opportunity to perform a better follow-up through different student attendance reports.

In traditional (group) instruction, it will be possible, through the parameters established by the centre, to enter attendance data even if the timetables have not been defined. Thus, TOSCA.net will create the group timetables from the attendance data entered.

Intended clientele

- Teachers in traditional or individual instruction

Main features

The software essentially allows teachers to :

Attendance

- enter student absences, early departures and late arrivals
- print attendance the lists
- print various attendance reports

Results
